## THE PEONY

is still in its infancy. Every florist should grow a few peonies. Once the merits of peonies are shown one's clientele, they sell well, but best sorts sell easiest. The immense collection we have gives us exceptional opportunity to know the relative merit and correctness of nomenclature.

We cannot supply all the demand for peonies, but we do sell a large part. A visit to our place, when peonies are in bloom, will repay anyone.

A nice lot of iris will add variety to one's stock of cut flowers; besides, plants sell well where seen.

Our guarantee: We duplicate any errors. We do not send out sorts in doubt.

Hemerocallis is one of the very best of all hardy flowers, always sure.
